

Recipe Library API Routes

Core Recipe Routes

GET /recipes - Get all recipes (maybe with pagination)

GET /recipes/:recipeId - Get a single recipe by ID

POST /recipes - Create a new recipe (Authenticated users only)

PATCH /recipes/:recipeId - Update a recipe (Only owner/admin)

DELETE /recipes/:recipeId - Delete a recipe (Only owner/admin)

User-Specific Routes

GET /recipes/me - Get recipes created by the logged-in user

GET /recipes/user/:userId - Get recipes by a specific user

POST /recipes/:recipeId/favorite - Favorite (or unfavorite) a recipe

GET /recipes/favorites - Get the user's favorite recipes

Search & Filters

GET /recipes/search?query=pasta - Search for recipes by name/ingredients

GET /recipes/filter?cuisine=italian&difficulty=easy - Filter recipes by criteria

GET /recipes/random - Get a random recipe for inspiration

Comments & Reviews

POST /recipes/:recipeId/comments - Add a comment to a recipe

GET /recipes/:recipeId/comments - Get all comments for a recipe

DELETE /recipes/:recipeId/comments/:commentId - Delete a comment (Only author/admin)

Advanced Features

POST /recipes/:recipeId/share - Share a recipe (e.g., generate a shareable link)

GET /recipes/trending - Get trending or most-liked recipes

POST /recipes/:recipeId/report - Report a recipe for inappropriate content
